

THE FUTURE OF GRADUATE EDUCATION CONFERENCE

What are future perspectives in graduate education? Can we contribute and shape new trends? Which innovative ideas are already implemented at other universities in order to adapt the graduate education to modern standards? At the conference we are going to discuss these and other questions with national and international higher education experts.

Please register for the conference on the Graduate School's website. Participation is free of charge.

NOVEMBER 29, 2019
9:30AM - 5PM
